Wiley

December 30th, 2018 - You are currently using the site but have requested a page in the site. Would you like to change to the site?

Estimating dynamic panel models in corporate finance

February 11th, 2019 - 1 Introduction Dynamic panel models play an increasingly prominent role in corporate finance research. Empirically understanding payout policy, capital structure, or investment decisions arguably requires the use of firm fixed effects to control for unobserved time-invariant differences across firms. Yet uncorrected coefficient estimates for a dynamic panel model can be severely biased.

Using the job demands-resources model to predict burnout

January 13th, 2019 - The job demands-resources (JD-R) model was used to examine the relationship between job characteristics, burnout, and other ratings of performance. N = 146. We hypothesized that job demands, e.g., work pressure and emotional demands, would be the most important antecedents of the exhaustion component of burnout, which in turn would predict in-role performance. Hypothesis 1.
