jcb 3cx movement problems Tractor Forum Your Online

February 17th, 2019 - hello everyone i have a problem with my jcb 3cx it has full moving power in reverse but when its shuttle is placed for it to move forward it just revs up and wont move what so ever i have cleaned the filter for the torque converter and replaced its fluids and this hasnt worked i dont want to go stripping it apart unless i have some clue as to where i should start stripping

JCB 212S Hydraulic issue Heavy Equipment Forums

February 6th, 2019 - the control valves you are referring to are ARV aux

relief valves protects each circuit you need to put a pressure gauge on the machine to see what you have it might be pump as a good way to test this put boom down on the back and say 3 4 revs lift boom up and half way whilst keeping lever in the same position drop the revs back and see if the boom stops if so you will need to do a flow test
